

SECRET

MEMORANDUM FOR:

Director of Communications

25X1A

20 JAN 1964

SUBJECT:

Reinstallation of KY-1 Voice
Communication System in ORR

1. In July 1963, the KY-1 Voice Communication System between Rm 4F-26 in the Headquarters Building and Alcott Hall, connecting the office of the Assistant Director for Research and Reports with [REDACTED] was removed and transferred temporarily to units of DD/P/WH. On 15 January 1964 I was informed that the system could be reinstalled in ORR should we still want it back.

25X1A

2. In view of the current emphasis on economy I have reviewed the current degree of need for the KY-1 system in ORR. I have found that while our need for a secure communications system is still extant, it does not seem sufficiently strong to justify the system's cost.

3. I request, therefore, that the KY-1 not be reinstalled in ORR.

[REDACTED]
Acting Special Assistant
to the AD/RR
